Infrared Thermometer

CE FDA

For the sake of your health.

Model - TG8818B

1 Year
LIMITED WARRANTY

Body temp
HOLD

leelvis

Product Feature

Forehead temp mode

HD

Backlit display

Clinically validated

Mute sound

Object mode

Memory recall of 32 readings

10 sec

Fast read

°C/°F conversion

Normal

Green backlight
34°C~37. 3°C
Normothermia

Heat

Red backlight
38. 1°C~9. 1°C
Have a fever

Temperature measurement range

Non-contact infrared measure
Measurement precise and aviod cross infectionavi

- Speediness
- Precision head
- Auto-calibration

Display the accurate digits	0.1℃ (0.1℉)
Storage temperature	-20-55℃
Operating environment temperature	16℃~35℃
Relative humidity	≤85%
Power	DC 3V(2 AAA battery)
Specification	160*100*40mm
Weight	100g
Production date	See the product certification for details.

2. Measuring range

Model temperature measuring range in human body	32.0-42.9℃
Range of measuring distance	1 - 5 cm
Automatic shutdown	About 20s
